BP 1010 Introduction BP 2030 Role of the General Counsel

#### SUMMARY OF ISSUE

The 2020 decennial census triggers a mandatory legal duty for the District to adjust its division boundaries. Reapportionment must comply with state law and with constitutional principles that ensure our ratepayers continue to receive fair and equal representation. The purpose of this item is to update the Board on staff progress and receive input from the Board in public.

#### **BACKGROUND/DISCUSSION**

#### Redistricting Update

Since the last public workshop on January 24, District staff have begun to develop division boundary alternatives that comply with the two mandatory criteria of population equality (targeting approximately 26,441 persons per division) and anti-discrimination. Besides the two mandatory criteria of population equality and anti-discrimination, Elections Code section 22000(a) states that the reapportionment "may" give consideration to the following secondary factors: (1) topography, (2) geography, (3) cohesiveness, contiguity, integrity, and compactness of territory, and (4) community of interests of the division. Under state law, consideration of these factors is optional; however, Board Policy 1010 makes them mandatory.

Staff have analyzed the 2020 census data along with informational maps that reflect data useful in assessing the secondary factors described above and have developed four draft maps that reflect potential divisional boundaries informed by these factors. During the presentation of this item, staff will present interactive views of the alternative maps included in this agenda item as Attachments A, B, C, and D. In addition to the draft maps, staff have included summaries of how each map portrays three key criteria: (1) how to treat communities of interest associated with EID services; (2) how to split populous communities like El Dorado Hills, Cameron Park, Diamond Springs, El Dorado, and Placerville; and (3) how to minimize voter disruption.

#### Next Steps

District staff seek feedback from the Board and public on the draft alternative division maps and plan to bring revised maps back to the Board on February 28th. District staff will continue to update the District's dedicated redistricting webpage with content as it becomes available.

# REDISTRICTING

FEBRUARY 14, 2022

### PREVIOUS BOARD ACTION

 August 22, 2011 – Board adopted Resolution No. 2011-016, establishing new division boundaries that provided for near equal division population

 May 24, December 13, 2021, and January 24, 2022 – Board considered information item on reapportioning District divisions in 2021

### SUMMARY OF ISSUE

 The 2020 decennial census triggers a mandatory legal duty for the District to adjust its division boundaries

 Must comply with state law and constitutional principles to ensure ratepayers receive fair and equal representation

### CRITERIA FOR REDISTRICTING

- District staff intend to develop division boundary alternatives in compliance with the two mandatory criteria
  - Population equality: population is equally distributed among the divisions (target approximately 26,441 persons)
  - Anti-discrimination: avoid the imposition of racial, ethnic, or linguistic impediments to citizens' voting rights

### CRITERIA FOR REDISTRICTING

- Other secondary factors to consider:
  - Topography
  - Geography
  - Cohesiveness, contiguity, integrity, and compactness of territory
  - Community of interests

### CRITERIA FOR REDISTRICTING

#### Secondary factors include:

- Elevation
- Watershed boundaries
- Watercourses
- Major roads and road networks
- Boundaries of Community Regions and Rural Centers defined in the County's General Plan
- Boundaries of the District's Deer Creek and El Dorado Hills wastewater collection systems

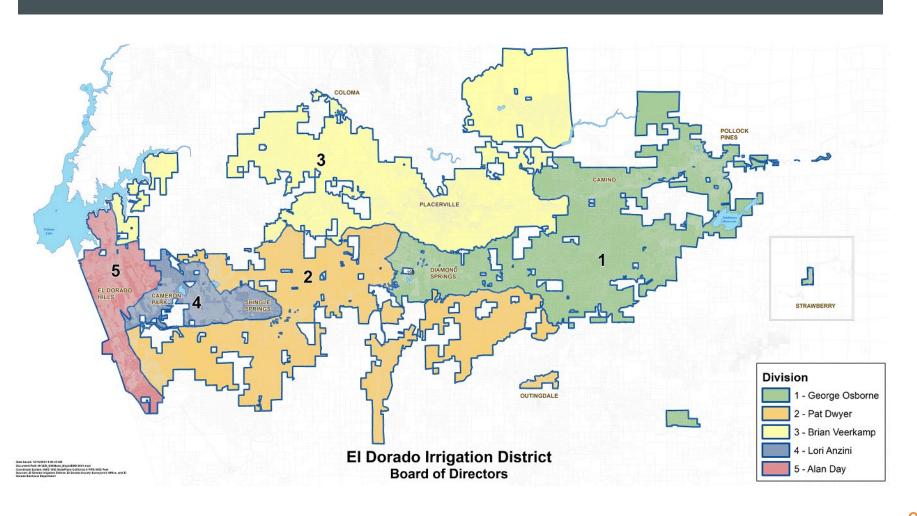

- The District's recycled water service area
- County-designated agricultural regions
- Regions of large-lot residential subdivisions
- Concentrations of multi-family housing
- The location, type, and intensity of future development under applicable County planning and zoning enactments

### KEY ANALYTICAL FACTORS

 How to treat "communities of interest" associated with EID services received?

- How to split communities like El Dorado Hills, Cameron Park, Diamond Springs, El Dorado, and Placerville?
- How to minimize voter disruption?
