Appendices

Appendix 1: Forest Service Preliminary Terms and Conditions Provided Under 18 CFR 4.34 (b)(1) in Connection with the Application for Relicensing of the El Dorado Hydroelectric Project (FERC No. 184) November 2002

Introduction

This cost impact study was undertaken for the El Dorado Irrigation (EID) to determine the District's share of cost for the, reconstruction, new construction, heavy maintenance, and routine operations and maintenance of recreational facilities located in the National Forest as proposed by the US Forest Service in conjunction with the FERC Relicensing Project 184. This study estimates the annual and extended cost impacts associated with each of the USFS 4E Document conditions and recommendations pertaining to recreation facilities.

The report is formatted to follow the same order as that of the 4E Document, which is organized by type of service required. Under each type of service there are several developed recreation sites identified and details specified. The types of sites include trailheads, day use/picnic areas, campgrounds, an information kiosk, a boat launch facility, and parking facilities.

Background and Methodology

Report preparation included several steps, a general visit to most sites with Don Pearson (EID Recreation Director), researching the facility brochures, reviewing site plans or as-built drawings (where available), field trips to inventory the sites, interviews with staff at EID, the Forest Service, and with retired Forest Service personnel, and concessionaires. An inventory of facilities at each site was compiled, and then unit costs were established and extended. A list of the study resource and contact people is included in the appendix.

The recreation sites proposed by the USFS to be included in the Project 184 license are in three districts of El Dorado National Forest, Amador, Placerville, and the Lake Tahoe Basin Municipal Unit (LTBMU). In the Amador ranger district the sites are near Silver Lake, Caples Lake, and Hwy 88 toward Carson Pass. In the Placerville and LTBMU they are on both sides of Hwy 50 between Placerville and Echo Summit. These trailheads, day use, and campground facilities are located on the west slope of the central Sierra Nevada Mountains, where they range from about 3500 feet at Bridal Veil picnic area to over 7500

feet near the passes. The facilities are subject to heavy winter snows at higher elevations. See project map provided in the appendix to this report.

The region serves as a playground to the large cities of Sacramento, the Bay Area and all the smaller communities of Northern California. Several detailed recreation use studies were recently conducted by the Regional and Economic Sciences Department at Chico State University. During the study surveys were conducted to determine the recreational user preferences and opinions when visiting the project region of the National Forest.

Review of Facilities

A brief review of the conditions and recommendations for routine operations and maintenance, heavy maintenance, redevelopment, and new development as outlined by the US Forest Service in their 4E Document follows.

Reconstruction Projects: Several sites are suggested for reconstruction to bring them up to current USFS standards and ADA accessibility standards. These sites, which are identified in Condition #23 of the 4E Document are as follows:

USFS owned facilities

- Silver Lake Campground-West (begin within 5 years)
- Caples Lake Campground (begin within 5 years)
- Caples Lake Dam Trailhead (begin within 5 years)
- Martin Meadow Overflow Camping Area (begin within 5 years)
- China Flat Campground (begin within 10 years)
- China Flat Picnic Area (begin within 10 years)
- Silver Fork campground (begin within 10 years)
- Caples Lake Dam Gate (begin within 5 years)
- Echo Lakes Upper Parking Facility (begin within 10 years)

EID Owned Facilities

- Ferguson Point (begin within 5 years)
- Sandy Cove (begin within 5 years)
- Silver Lake West Campground (begin within 5 years)

- Woods Creek Fishing Access (begin within 5 years)

New Construction Projects: The following USFS owned areas are proposed in condition #23 of the 4E Document for new facility construction:

- Caples Lake Boat Launching Facility (construct within 10 years)
- Information Kiosk on Hwy 88 (construct within 5 years)
- Pacific Crest National Scenic Trail Conduit Crossing (construct within 5 years)

Routine Maintenance and Operations Projects: Condition #24 of the 4E Document identifies the following USFS owned sites for regular operation and maintenance by EID in the future. This includes removing trash and pumping restroom facilities, etc.:

- Caples Lake Dam Trailhead (begin within 5 years of license issuance)
- Caples Lake Boat launching Facility-new (begin after construction - Year 10)
- Echo Lakes Trailhead (begin within 5 years of license issuance)

Heavy Maintenance Projects: Facilities proposed by the Forest Service for EID scheduling and performance of heavy maintenance over the 40-year life of the new FERC License is identified in Condition #24. These items include paving of roads and campsites, replacing picnic tables, fire rings, etc.

USFS Owned Facilities

- Silver Lake East Campground (begin after reconstruction scheduled for year 5)
- Caples Lake Campground (begin after reconstruction scheduled for year 5)
- Caples Lake Dam Trailhead (begin after reconstruction scheduled for year 5)
- Caples Lake Boat launching Facility (begin after construction in year 10)
- Information Kiosk on Hwy 88 (begin after construction in 5 years)
- Echo Lakes Trailhead Upper Parking (begin after reconstruction – 10 years)
- Pyramid Lake Trailhead (begin within 5 years of license issuance)
- Silver Fork Campground (begin after reconstruction -10 years)
- China Flat Campground (begin after reconstruction - 10 years)
- China Flat Picnic Area (begin after reconstruction - 10 years)

- Martin Meadows Overflow Camp (begin after reconstruction - 10 years)
- Sand Flat Campground (Assume begin HM - 5 years)
- Bridal Veil Picnic Area (Assume begin HM - 5 years)
- Shealar Lake Trailhead (Assume begin HM - 5 years)
- Lake Margaret Trailhead (Assume begin HM - 5 years)
- Allen's Camp Trailhead (Assume begin HM - 5 years)
- Horse Canyon Trailhead (Assume begin HM - 5 years)

EID Owned Facilities: The Forest Service has also proposed in recommendations 3 and 4 that the following EID owned facilities be maintained to USFS standards:

- Ferguson Point (Assume begin HM - 10 years)
- Sandy Cove (Assume begin HM - 10 years)
- Silver Lake West (Assume begin HM - 10 years)
- Woods Creek Fishing Access (Assume begin HM - 10 years)

Dispersed Area Patrols and O/M Projects: The Forest Service also proposes that EID assume a share of the cost of future dispersed patrol, operations, and maintenance services. These services are presently performed by the USFS. They include:

- The Upcountry HWY 88 Unit (begin year 2 of new license)
- The Silver Fork/ South Fork Unit (begin year 2 of new license)
- The Pyramid Creek Unit (begin year 2 of new license)
- The Lake Aloha/Echo Lakes Unit (begin year 2 of new license)

Proposed Upgrade of EID Owned Facilities: Recommendations 3 and 4 of the 4E Document propose that EID bring several EID owned facilities into compliance with current Forest Service design standards and ADA accessibility standards. Reconstruction and heavy maintenance standards have been applied to these sites which include:

- Ferguson Point (Reconstruct within 5 years)
- Sandy Cove (Reconstruct within 5 years)
- Silver Lake-West facilities (Reconstruct within 5 years)
- Woods Creek Fishing Access (Reconstruct within 5 years)

Summary of Cost Impacts to EID

Costs are summarized below for each category of project. That is reconstruction projects, new construction projects, heavy maintenance projects, and routine maintenance and operations projects. Costs indicated have been factored by 3% per year for inflation over an estimated FERC License period of 40 years.

Reconstruction Projects

USFS Properties	\$ 4,600,156
EID Properties	\$ 1,463,510
Total Reconstruction Projects	\$ 6,063,666

New Construction Projects

USFS Properties	0
EID Properties	\$ 2,539,465
Total New Construction Projects	\$ 2,539,465

Heavy Maintenance Projects

USFS Properties	\$ 20,534,054
EID Properties	\$ 4,500,918
Total Heavy Maintenance Projects	\$ 25,034,972

Routine Operation & Maintenance Projects

USFS Properties	\$ 761,359
EID Properties	\$ 0
Total Operation & Maintenance Projects	\$ 761,359

Dispersed Operation & Maintenance Units

USFS Units	\$ 5,014,566
EID Units	\$ 0
Total Dispersed Operation & Maintenance Units	\$ 5,014,566
Total All Categories 40 Year Period	\$ 39,414,028

Table 1 *EID Cost Impact Summary* provides detail for each park unit, which includes ownership, year activity is scheduled to start, and the adjusted cost of the activity (factored by 3% inflation over the estimated 40 year term of the new FERC License).

Table 2 *Heavy Maintenance Unit Cost and Replacement Frequency Schedule* sets forth the unit cost and replacement frequency information for each category of facility found in all of the park sites visited and inventoried. These unit costs have been universally applied to each facility in 2002 dollars. Three percent annual inflation was then applied to these figures. Additional worksheets are included in the appendix that were developed to extend costs for all categories of facility including reconstruction, new construction, heavy maintenance, routine maintenance & operations of park sites, and patrol and maintenance & operation of dispersed areas within the National Forest.

TABLE 1**EID COST IMPACT SUMMARY**

Project Description	USFS Project	EID Project	Year Start	Adjusted Cost
Redevelopment Projects				
Silver Lake East Campground	X		2008	\$2,196,198
Caples Lake Campground	X		2008	\$1,192,477
Caples Lake Dam Trailhead	X		2008	\$6,529
Martin Meadow Overflow Camping Area	X		2008	\$233,079
China Flat Campground	X		2013	\$77,766
China Flat Picnic Area	X		2013	\$632,162
Silver Fork Campground	X		2013	\$101,096
Caples Lake Dam Gate	X		2008	\$8,060
Echo Lakes Upper Parking/Trailhead	X		2013	\$161,814
Ferguson Point		X	2008	\$139,913
Sandy Cove		X	2008	\$201,926
Silver Lake West Campground		X	2008	\$1,034,646
Woods Creek Fishing Access		X	2008	\$87,025
Sub Total				\$6,072,691
New development Projects				
Caples Lake Boat Launch	X		2013	\$2,353,008
Highway 88 Information Kiosk	X		2008	\$61,082
PC Trail Crossing	X		2008	\$125,375
Sub Total				\$2,539,465
Heavy Maintenance Projects				
Silver Lake Campground (East)	X		2013	\$4,257,428
Caples Lake Campground	X		2013	\$2,498,511
Caples Lake Dam Trailhead	X		2013	\$648,292
Caples Lake Launch ramp	X		2018	\$1,533,574
Echo Lakes Trailhead/Upper Parking Area	X		2018	\$557,689
Hwy 88 Information Kiosk	X		2013	\$150,061
Pyramid Creek Trailhead	X		2008	\$700,863
Silver Fork Campground	X		2018	\$2,077,674
China Flat Campground and Picnic Area	X		2018	\$1,538,143
Sand Flat Campground	X		2008	\$2,104,133
Bridal Veil Picnic Area	X		2008	\$1,907,350
Shealor Lake Trailhead	X		2013	\$976,584
Lake Margaret Trailhead	X		2008	\$499,570
Allen's Camp Trailhead	X		2008	\$153,072
Martin Meadows Overflow Camping Area	X		2013	611941
Horse Canyon Trailhead	X		2008	\$319,169
Ferguson Point Picnic Area		X	2013	\$275,901
Sandy Cove Picnic Area		X	2013	\$545,517
Silver Lake Campground		X	2013	\$3,037,964
Woods Creek Fishing Access		X	2013	\$642,631
Sub Total				\$25,036,067

Routine Operation & Maint. Projects				
Caples Lake Dam Trailhead	X	2008	\$269,794	
Caples Lake Launch Ramp	X	2013	\$94,651	
Highway 88 Information Kiosk	X	2008	\$39,118	
Echo Lake Dam Trailhead	X	2008	\$357,796	
Sub Total				\$761,359
Dispersed Operation & Maint. Projects	X			
(See Note 1)				
Sub Total		2003		\$5,014,566
Total				\$39,424,148

Notes:

1. Dispersed projects include Upcountry Highway 88 Unit, Silver Fork/South Fork Unit, Pyramid Creek Unit, and Lake Aloha/Echo Lakes Unit

TABLE 2**HEAVY MAINTENANCE UNIT COST AND REPLACEMENT FREQUENCY SCHEDULE**

Description	Material	Unit Meas.	Unit Cost	Replace Freq./yrs.	Comments
Toilet	concrete	ea	\$18,000	50	
Kiosk (3 panels unit)	wood	sf	\$18,000	15	
Water system (source to site)	galvanized 3" pipe	lf	\$16	20	
Water system (site lines)	pvc 3/4' to 2'	lt	\$16	20	
Water faucet (HC accessible)	pvc pipe/galv. Foscket	ea	\$800	10	foscket, riser, drain box, post unit
Roads & parking	asphalt concrete	sf	\$3	20	
Roads & parking	slurry seal	sf	\$1	5	
Roads & parking	aggregate base	sf	\$2.75	3	
Road striping	paint	lf	\$0.66	5	
Parking space striping	paint	ea	\$12.00	5	
Retaining wall	wood	lf	\$200	15	3' high
Campsite spur	asphalt concrete	sf	\$3	20	
Path	leveling, compacting	lf	\$2	5	
BBQ grill	steel	ea	\$400	15	
BBQ grill (group)	steel	ea	\$500	15	
Fire ring	steel	ea	\$400	15	
Fire ring (group)	steel	ea	\$500	15	
Picnic table (accessible)	wood	ea	\$750	15	
Group serving table	wood	ea	\$950	15	
Food storage box (bear proof)	steel	ea	\$1,200	15	
Trash container (bear proof & accessable)	Steel	ea	\$1,175	15	
Entry sign	wood	ea	\$2,400	10
