

FERC Project 184 *2013 Wildlife Mortality Report*

The Federal Regulatory Energy Commission (FERC) Order Issuing New License dated October 18, 2006, includes the Project 184 Forest Service (FS) 4(e) Conditions as Appendix A. FS Condition 43 states that “The licensee shall provide the FS and ERC by April 1 of each year an annual report describing the date, location, and species information (deer or other wildlife) found in the El Dorado Canal.”

El Dorado Irrigation District (EID) provides this report in compliance with Condition 43 – Wildlife and Sensitive Plant Protection Measures.

In 2013, 2 deer perished in the Project 184 canal system; details are as follows:

DATE	DETAILS
05/10/13	A deceased doe was removed from the Camp 1 siphon
07/29/13	A deceased buck was removed from the trash rack at Camp 2

In accordance with the approved Canal Wildlife Fencing Plan, all upgrades to the canal fencing were completed in 2009.

EID continues to be committed to proactively monitoring, evaluating, and improving project operations to minimize wildlife mortalities along the Project 184 Canal System.
