

Recycled Water Program Installation Overview

The irrigation system or copper line plan shall be drawn in accordance with the District's Design and Construction Standards.

Plans are submitted to - recycledwater@eid.org 10 MB file size maximum. See website for details.

New Plans
Submitted

Plans are revised and corrected by the designer.

The District reviews plans; allow up to 10 working days for processing.

Plans
NOT
Approved

If discrepancies are found, the designer is required to submit revised plans.

Plans APPROVED

When plans are approved, the District will mail notification letter to the homeowner.

Construction may begin by a contractor from the Authorized Contractor List.

Open Trench inspection will be scheduled when irrigation system or copper lines are ready. Use the [Online Inspection Request Form](#) on our website and allow up to two business days for the inspection to be completed.

Final Inspection will be scheduled after the approval of the Open Trench inspection(s). Use the [Online Inspection Request Form](#) on our website and allow up to 2 business days for the inspection, homeowner or contractor are required to be present.

Congratulations!

tips

MAKE SURE YOUR CONTRACTOR MEASURES UP

1

Hire only state-licensed contractors.

2

Check a contractor's license number online at www.cslb.ca.gov or by calling (800) 321-CSLB (2752).

3

Get at least three bids.

4

Get three references from each bidder and review past work in person.

5

Make sure all project expectations are in writing and only sign the contract if you completely understand the terms.

6

Confirm that the contractor has workers' compensation insurance for employees.

7

Never pay more than 10% down or \$1,000, whichever is less. Don't pay in cash.

8

Don't let payments get ahead of the work.

9

Keep a job file of all papers relating to your project, including all payments.

10

Don't make the final payment until you're satisfied with the job.
