

El Dorado Irrigation District's RECYCLED WATER WORKSHOP

For information regarding future recycled water workshops, please visit our website at [Recycled Water Workshop Information](#).

Location: ONLINE ** (Zoom webinar)

The workshop will cover the District's recycled water irrigation system & drinking water feature requirements. There will be a review of the plan approval and inspection process to help in the installation of the landscape irrigation and any water feature systems.

In order to be listed as an authorized company to perform work in dual-plumbed communities, designers, pool contractors, and landscape companies are required to attend an EID workshop before any design or installation begins. All companies are required to attend a workshop every 18 months to remain on the list. Homeowners living in homes supplied with recycled water are encouraged to attend a recycled water workshop.

Please email RWWorkshops@eid.org with any questions.

In accordance with the Americans with Disabilities Act and California law, it is the policy of the El Dorado Irrigation District to offer its public programs, services and meetings in a manner that is readily accessible to everyone, including individuals with disabilities. If you are a person with a disability and require information or materials in an appropriate alternative format; or if you require any other accommodation, please contact the ADA Coordinator at the number or address below at least 72 hours prior to the meeting or when you desire to receive services. Advance notification within this guideline will enable the District to make reasonable arrangements to ensure accessibility. The District ADA Coordinator can be reached at (530) 642-4045 or adacoordinator@eid.org
