***Re: FERC Project 184, Bathymetry***

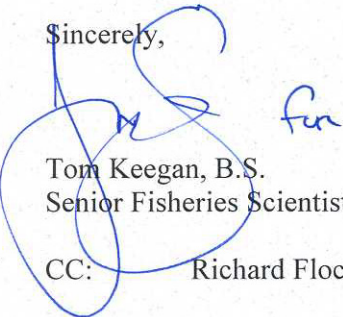

As part of the relicensing of the El Dorado Hydroelectric Project, FERC 184-065 (Project 184), the El Dorado Irrigation District (EID) has contracted with ECORP Consulting, Inc. (ECORP) to conduct a Bathymetric study of lakes within the Project 184 area. This information was gathered from Carlton Engineering's 1999 survey and plotted by ECORP Consulting.

Please find enclosed the following Adobe format files containing Bathymetry maps for the Caples Lake, Silver Lake, and Echo Lakes within the Project 184 study area.

- 184\_Silvr\_Bth\_20020702.pdf
- 184\_Echo\_Bath\_20020702.pdf
- 184\_Cpls\_Bath\_20020702.pdf

If you have any questions or comments, please call me at (916) 782-9100.

Sincerely,

Tom Keegan, B.S.  
Senior Fisheries Scientist/Project Manager
